

# LYNCHBURG CITY COUNCIL

## Agenda Item Summary

MEETING DATE: **February 11, 2003**

AGENDA ITEM NO.: 5

CONSENT: **X**

REGULAR:

CLOSED SESSION:  
(Confidential)

ACTION: **X**

INFORMATION:

ITEM TITLE: **Replacement of the Campbell Avenue Bridge Over Fishing Creek**

RECOMMENDATION:

Approve the attached resolution to accept the low bid for the Replacement of Campbell Avenue Bridge over Fishing Creek and authorize the City Manager to sign the contract.

SUMMARY:

Campbell Avenue over Fishing Creek Bridge was originally constructed in the early 1900's. It has been widened to a width of 33 feet since that time. The structure is a simple span concrete T-beam bridge with a vehicle weight posting of 20 tons.

Due to the overall general condition, the existing bridge needs to be replaced. The new bridge will be a three-barrel reinforced concrete rigid frame structure. The rigid frame structure should be less overall maintenance over the life span of the new structure.

On January 21, 2003 seven bids were received for this renovation, ranging from \$533,592 to \$1,099,861, D. W. Kyle Corporation of McKenney, VA was the low bidder on this project.

Additional project costs are estimated to be - \$235,359 for Railroad Flagman, Railroad Insurance, Consultant Inspection and Materials Testing, City Engineering and Contingency.

PRIOR ACTION (S): February 4, 2003 Physical Development Committee

FISCAL IMPACT:

Funds for this work are available in the Capital Project Balance, Replacement of the Campbell Avenue Bridge over Fishing Creek.

Source	Appropriation	Spent to Date	Balance	Proposed
